Response to Amendment

Applicants' amendment filed on December 27, 2004 has been forwarded to the Examiner on January 18, 2005.

Therefore claims 25,26,27,28 and 33 as amended by the amendment and 12-24 and 29 to 32 as previously recited are currently pending in the Application.

Claims 1-11 were previously cancelled.

Allowable Subject Matter

Claims 12 -37 are allowed .

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 12,17,18, 19, 20, 24, 25, which include a semiconductor device wherein the titanium oxide in anatase phase inhibits the current caused by tensile strain, and in compression strain is produced to decrease interatomic distances to suppress leakage current.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
